Listing details

Title: Nightforce NXS 1-4X

Price: R 15,000.00

Make: Nightforce

Model: NXS 1-4x24mm

Condition: Good

Business or Customer Name: Kyle Harmse

Phone: +27 (82) 654-3059

Email: kyleharmse@hotmail.com

Country: South Africa

State/Region/Province: Gauteng

City: Glenvista

Additional Information: SFP LPVO optimised for close and medium range shooting

Outstanding quality glass: excellent light transmission, zero chromatic aberration, and a flat, crisp image.
Long eye relief and huge eyepiece, far more generous in 1x for rapid transitions and/or shooting in awkward positions than 1-6x or 1-8x LPVOs.
Excellent for short and medium range IPSC competition stages and hunting at shorter distances-- this scope has been used for both.
Uses the NXS reticle (see image). Decent low-light illumination but not daylight bright. Crosshairs provide good dark contrast for daytime shooting.
Turrets provide .25 MOA adjustments with good tactile clicks, come with adjustable zero stops.

Mount and shipping included. ZAR 15 000, negotiable.
