Description: I've decided to put my Vektor LM5 on the market.

I bought the rifle in 2019 from a private collector who had a very special collection of the full LM range as well as many other historical SA rifles, all of them in mint condition. Since purchasing the rifle I have not fired it once.

I don't want to sell and I don't really need to sell. I was planning to keep this rifle as a special bit of Afrikana and then pass it on to my son someday. But because it is sitting in my safe completely unused I

thought I'd put it on the market and see if I will do something that I one day regret.

The price I'm asking is what it is worth to me. So if you look at the photos and see the value, feel free to get in contact. Otherwise, I hope you also just enjoy the photos with me.

Have a look at this insightful YouTube video on the LM range:

Includes: 5 steel mags, 1 polymer mag, two original grips, sling, suppressor and some extra spares.

The ad only allows for 5 photos, but I can send more upon request.
