State/Region/Province: Province of the Western Cape

City: George

Additional
Information:

This is purely for the collector enthusiast. One of the first examples that has the LEW handguards and the grooved trigger. This pistol has been a safe queen most of its life. Very little round count and it is in an excellent condition with little sign of use and carry. The serial number is has the TQ prefix

The pistol includes 2 x factory magazines with the LEW logo.

Original civilian market packaging box. (has signs of storage over the years)

Cleaning brush.

LEW booklet. (little blue book)

A Vektor Z88 spring replacement set

I can only upload 5 photos but more photos can be sent upon request.

Serious buyers only. No exceptions.

I will not entertain any form of time wasters.

This is a wonderful piece of South African history regarding manufacture quality.

Solid reliable platform with a unique history behind the LEW manufactured arms.

If sold, the following procedure will apply. No exceptions at all.

1) The pistol will be sent to a dealer of the buyers choice together with the relevant documents and

SAPS 534 document where the pistol will be placed on dealers stock.

2) All courier fees (RAM) will be on buyers account including relevant dealer storage fees.

3) No storage permits.

The option of first applying for license with the 271 form will be only be available to buyers nearby my area. (Garden Route Area)

To make it simple and easy, the Dealer stock method will be preferred as the pistol will be fully paid for, in dealer stock which makes it legally your property. You can then apply for the license. Where the dealer will hand it over once your licensed has been issued.

Don't miss the chance to own this beautiful pistol which is becoming very very rare to find in such a condition.

Regards
